

Additional Books and Articles

These are not required but provide additional incite:

Books for further investigation:

Scott DW, Miller WH Jr, Griffin CG. Muller and Kirk's Small Animal Dermatology, 6th edition. W.B. Saunders Co., Philadelphia, 2000.

Allergy and skin immunology section are good. The autoimmune skin disease sections are not very helpful in differentiating the clinical presentations of the specific autoimmune skin diseases.

Reedy LM, Miller WH Jr., Willemse T. Allergic Skin Diseases of Dogs and Cats, 2nd edition. W. B. Saunders Co., Philadelphia, 1997.

An excellent allergy text for a more in-depth understanding.

Cellular and Molecular Immunology, 4th ed, Abul K. Abbas, Andrew H. Lichtman, Jordan S. Pober, Abdul K. Abbas. W. B. Saunders Co., Philadelphia,

Articles

Hnilica KA, Angarano DW. Advances in immunology: Role of T-helper lymphocyte subsets. Compedium of Continuing Education for the Practicing Veterinarian. 19: 87-93, 1997.

DeBoer DJ, Hillier A. The ACVD task force on canine atopic dermatitis (XVI): laboratory evaluation of dogs with atopic dermatitis with serum-based "allergy" tests. Vet Immunol Immunopathol. 2001 Sep 20;81(3-4):277-87.

Olivry T, Joubbeh S, Dunston SM, Nishiyama T, Ghohostani RF. Desmoglein-3 is a target autoantigen in spontaneous canine pemphigus vulgaris. Exp Dermatol. 2003 Apr;12(2):198-203.
